Returning to serve...

Amazing! It's coming up on 2 years since my first trip to meet Pastor Yvon, his family and the 20 orphan children under his care in Haiti. It was just 2 months after the earthquake and the situation was dire beyond words— surviving in tarp tents adjacent to the collapsed Presidential palace in Port-au-Prince, desperate for consistent food and water, wondering what the future held.

Now settled in Les Anglais, a rural southwestern fishing village far from the turmoil of the capital, we continue to see God at work providing for Pastor, the orphan children and the village. They are benefiting from clean water from new wells, VBS and community health classes and a new

sewing business. There is also a fishing boat and net business in the works.

Sustainability is a major goal for Global NIM and its new

partner, Harvest Field Haiti (HFH). But our heart's desire is that all will know, love and follow Jesus; He is the inspiration for true transformation.

On February 17, I will return to Haiti to work side-by-side with HFH's Director, Brian Lloyd, and a personal friend, Curtis Nelson. Our goal is to wire the rented house where the children and staff are staying. Much work is needed to provide reliable and safe electricity throughout the house using a quality Honda generator and possibly a solar panel system. Without a doubt, we will be working on other minor construction projects as well.

We could sure use your prayers as well as any financial support you wish to offer. Ideally, it will take about \$7,000 to buy the necessary wiring materials, light sockets, outlets, an inverter, batteries and solar panels. But good news! We covered our own airfare, so what you give goes directly to the project. Thanks for considering the opportunity to partner with us.

Christmas Giving in Abundance

Despite the economic downturn, God led Global NIM's donors to give generously once again!

We asked our mission partners in November to submit their Christmas programming plans and corresponding budgets to us in order to get an idea of cash-flow needs. Although highly impressed with their lofty and noble plans, the reality was that the funding needed far exceeded what was typically available in December.

Brother Elmerston and his family fed the homeless in Davao City, **Philippines**: *"We met an 86 year old woman; she was so happy that someone gave her in her [old] age now a Christmas gift. She was alone in the small house. We told her that she trusted Jesus which is the very best gift she ever received all through out her life, and she is very happy with tears in her face."*

The children of **Santhosa Samsara orphanage in Bangalore, India**, *"took some of their toys and gave them to some poor, underprivileged kids living 140 miles away. It was a wonderful moment. We also, with help of a local missionary, packed food packets [of] chicken biryani and had a time of fellowship with them.. .It really opened their eyes to the fact that giving is God's idea,"* wrote **Brother George**.

An Exciting Initiative in India!

If you know of Indian churches or organizations that might benefit from **new and exciting Bible-based, multi-media Vacation Bible School** materials, forward them these links. All materials were written, produced by Brother George.

Good Shepherd Mission—
Beggars received food and clothes

So,
1) we promoted...and prayed.
2) We asked others to pray.
3) We told our partners not to get their hopes too high...

Good Shepherd Mission—
Feeding 600-700 locals

But we should have known the power of prayer.

Donations came in not only to meet every partner's budget, but at a level to enable Global

NIM to begin 2012 with a much needed surplus, more than we have ever experienced in our seven-year history.

Praise His Name!
